We rented beach chairs to sit on. There were huge waves so we went down to the water. Again dad was too scared to let us in. Instead we play by the shore.

Me and my sister played in the tide pools. We played with the crabs, snails, and the shells. We started collecting shells around the beach. We put them in our pockets.

Dad called his friend he asked if there was another beach that was nicer. We went to a different beach under the bridge . Dad went snorkeling and me and my sister stayedbehind. Then dad came back and I came along with him back to the Coral reef.
